Most people  
are collaborators,  
(with the state,  
society, institutions)  
as are the  
institutions

engineers

Perhaps no pros  
since hst has  
wanted to explode  
a nuc, but sought  
an occasion to do so.

(N?)

But every one has  
had occasion to  
think

all have (and  
up) wanting the  
cop + availability

(

so those charged with  
printing proof

(not, printing all)

have ~~that~~ the

challenge of doing so  
is the basis of  
~~which~~ US policies

that strongly encourage  
proof.

Pr' want by the  
policy - price of  
proof (maximally, severely)  
discouraging proof.
